Comments: This was the most disgusting thing I've ever seen on TV...You cannot broadcast Porn
but you can broadcast this kind of absolute "Crap"...All I got was a quick warning not to watch if
I would be offended(what if I was too young to understand not to watch)...This is how far the
Republican Party will go to push their agenda and lies!!!!...I usually watch

channel 9 at 11

pm...Gonna re-think that decision especially if could get spammed by another
one of these ads ...
